

South Georgian Bay is experiencing a major beverage renaissance. Once a hotbed for bootleggers during Prohibition, the area now boasts several thriving (and completely above-board) drink producers.

This year, you can take a *Bootlegger's Run Tour* with a limited-edition Saints & Sinners growler. Pick up a growler at the Taste of the Trail event on June 12th or from participating member locations, and purchase refills of delicious craft beer and cider from the producers identified here by a little brown jug.

Remember to have your Bootlegger's Run Passport map stamped at each location you visit for a chance to win great prizes.
